

## Industrial Visits Organized by the Industry Interface Cell:

### National Institute for Research in Reproductive Health (NIRRH)

Six students of Pre-Ph.D. and Integrated M.Sc.-Ph.D. Biological Sciences along with faculty, Dr. Purvi Bhatt visited National Institute for Research in Reproductive Health (NIRRH) on 17<sup>th</sup> October 2016. The students were taken around in various departments and shown the facilities such as Electron Microscopy, Flow Cytometry, Confocal Microscopy and Animal House available for research at NIRRH. The faculty and technical staff explained and demonstrated all these high end instruments in a very lucid manner. It was well organized and very informative for the students. The visit to animal house was very informative as the students got to see different animal models such Swiss Albino mice, Rabbits, Marmosets used commonly in research. Also, the different numbering style for labeling animals was demonstrated. Overall the visit was excellent and highly informative to everyone.
