

**Develop Expertise in  
Quality Healthcare**

## **Master of Physiotherapy (MPT)**

The Master of Physiotherapy develops the ability to use highly-developed clinical reasoning skills to assess, diagnose and treat people with movement problems caused by a wide variety of joint, muscle, nerve and metabolic disorders. This course is designed for students who wish to become physiotherapy professionals in both clinical and academic settings. Gain real-world, immense exposure with hands-on training through clinical placements with our extensive network of clinical partners.

|                          |  |
