

Ph.D. Guides and Research Areas

| Sr. No. | Name of the guide | Research Areas |
|---------|-----------------------|---|
| 1 | Dr. Purvi Bhatt | Cancer biology, Cell and Molecular biology, Nanotechnology |
| 2 | Dr. Ekta Khattar | Telomere biology, Cancer, Aging |
| 3 | Dr. Harinder Singh | Stress biology, Enzyme engineering, Fatty acid production |
| 4 | Dr. Brijesh S. | Medicinal plants research, Immunology, Pharmacology, Nano-drug delivery systems |
| 5 | Dr. Sonal Manohar | Cancer biology, Anticancer drug discovery, Stem cell biology |
| 6 | Dr. Bajarang Kumbhar | Molecular modeling, Bioinformatics, Drug Discovery, CAR-T design |
| 7 | Dr. Pamela Jha | Glycation, Fermentation, Toxicity |
| 8 | Dr. Gurudas Mane | Functional materials for sustainable chemical technology |
| 9 | Dr. Darshana Potphode | Nanomaterials for energy storage, smart materials, polymer synthesis and applications, nanocomposites |
